

NativeWaves delivers an engaging and immersive media experience to audiences around the world. Using state-of-the-art technology, NativeWaves provides easy to use, advanced streaming solutions to the broadcast, esports and live entertainment industries to reliably deliver multiple streams of video, audio and data encodings, in perfect sync, which enables best-in-class, personalised viewer entertainment experience.

The company is at a very exciting stage of its development and currently we have the following job opening:

## Internship - Web Developer (f/m/d)

We are always happy to support young and motivated developers during their studies and providing them insights into the work and startup life. After the internships, we also offer the possibility to support you during your thesis.

### Responsibilities

- Collaborate with our team to create new features
- Actively contribute to the development of our frontend applications and libraries, primarily our web-based cross-platform and cross-device user experiences
- Use established and modern frameworks and platforms (e.g. Typescript, React, Styled-components, Material-UI, Redux, Storybook and more)
- Be part of a motivated team and join the discussion during our Sprint and Kanban planning sessions

### Skills required

- Basic knowledge of HTML, CSS, Javascript/Typescript
- Choose between digging into business logic or focus more on design and UI development, or mix both!
- Show a willingness to learn and grow
- Proficient in English (work as part of an international team)

### Work Environment

- A young and growing company, supported by international investors
- An international and ambitious team
- A lot of room for self-initiative and creativity
- Very flexible working hours and home office possibility
- A modern office near Salzburg Airport, good bus connection, parking spaces available

The monthly gross wage (full time 38.5 hours / week) is € 1,400.

We are open to discuss the duration of the internship, depending on the start and weekly hours.

Sounds interesting? If so, please send us a copy of your CV.
